Clare County receives scrap-tire cleanup grant

LANSING – The City of Clare has received a \$31,400 grant from the Michigan Department of Environmental Quality for scrap-tire cleanup, announced Sen. Michelle McManus, R-Lake Leelanau, and Rep. Tim Moore, R-Farwell.

“I am pleased to see these funds come to Clare,” McManus said. “This grant will help reduce the potential public health and environmental concerns, such as fire and mosquitoes, associated with scrap tire sites.”

“The funding for this project will help protect our natural resources in Clare,” Moore said. “A lot of hard work from many people went into showing the state the importance of the Clare clean up project and they should be applauded for their persistence.”

The Scrap Tire Cleanup Program has awarded grants to recipients throughout Michigan for the purpose of cleaning up tire sites and creating fire lanes in other scrap tire sites throughout the state.
